

ENVIRONMENTAL MANAGEMENT POLICY

LUCA CUCCOLINI S.L. is a manufacturing company whose activity corresponds to "the design and manufacture of natural, synthetic and metal buttons and fashion accessories such as lace, lumas and ribbon", establishing itself as a leading organization and a reference model in the sector, exercising a strong presence As a supplier for fashion brands spread across 5 continents. Our will is to preserve and improve this status by supplying our clients with quality products, for this, the performance of our activities is based on our corporate values that are closeness, experience, audacity and respect for the environment.

Aware of the importance of the deterioration of the environment and in order to improve our environmental behavior, LUCA CUCCOLINI SL Management has acquired the commitment to establish, implement and maintain an Environmental Management System based on the requirements of the UNE-EN-ISO 14001: 2015 standard. Through this policy we express our commitment to:

- Integrate environmental considerations in all activities carried out within our facilities, prioritizing pollution prevention and environmental protection, proper management of the waste generated, optimization of the use of raw materials and resources natural, and the mitigation and adaptation of climate change through the application of organizational and technological measures that are adequate and viable within our framework of competence.
- Strictly comply with current environmental, legislation, and regulations at local, regional, state, community, and international levels, as well as with other applicable environmental requirements. At the same time, we commit ourselves to respect the voluntary agreements and commitments adopted or other requirements considered pertinent, which the organization has agreed with our clients and identified interested parties.
- Provide that our Policy is a frame of reference for the achievement of our environmental objectives and goals, the continuous improvement of our environmental behavior and the effectiveness of our Environmental Management System.

Our staff will be endowed with the relevant training necessary for them to act responsibly in the exercise of their functions from the point of view of the environment, for which, it is essential to establish as a starting point that this policy is communicated and understood by the entire organization. Likewise, it will remain accessible to interested parties and the general public.
